Java1 Final Project

submission date:

project instruction:

- Every student need to work on their own project, students can share ideas with one other.
- Your should submit your project when finished on the google classroom before the day of presentation day.
- Everyone will present their project independently.
- Your project mark will be determine base on how you present your project and how you defend it. Questions will ask about how the pieces fits together, so definitely need to understand every single line of code in your project.
